After these exposures of his own ignorance, he proceeds to show by his bic, r turm , that he is as malignant as he is is norant. The Democrate are going to employ mean and de picable means in order to over-reach the Black Republican party. So the conduct of the Democratic Senate two years ago was de nounced, and present experience shows the meaner they pretend to think it, the more eager the Black Republican friends of the Kentucky organ will be to follow tha example the first opportun'ty. For the lact two years they have denonneed fercelonsly the conduct of the Democratic Senate in postponing the election; now they are doing the same act, and placing themselves under their own denunciations. Here is a truthful descrip tion of what they have said of the Democrate, which we take from a correspondent of the Wash-

be their right position, for it is not easy to decide at which end of them the most brains are.

The whole story is easily anderstood. The Black Republicans are striving to thwart the will of a majority of the people of Indiana by legal forms, and the question is, is there not a legal expedient to remedy the evil. We shall see. One thing is certain, the Demoe crasy of the Indiana Legislature will heed these Black Republicans one way or another. They will either compet them to elect United States Bentors, or drive the demagogues into so many ridioulous antice that their own wives and sweethearts will laugh at them, and the very degs will not bark at them. They stand before the will not bark at them. They stand before the State already self-stultified; condemned by the verdict of their own pronouncing. They made asses of themselves during the inanguration of Jall (Successors to D. T. Kandall), 429 Market et.

This sonderns what we suggested the other dey, the editor of the organ is looking to a union with the oriented Republicans of 1860, and has an cyc to the prospect. He is easier to see them acquire strength and importance in time for his use. In the mean time we should like to know where the Americans in the Senate of Indiana are? Is there not one of them? Then here is the case as it stands on record. If the bill so denounced had not passed, and the Misseuri compromise had steed valid, no man could have gene to the Territory with his slaves.

Now the fact is, that slavery is recognized and protected in Kausas; whether the destrine of squatter severeignty is in the bill or not. It is of no use to present the ease to the organ here, the conductor hasn't sense enough to see it, or he will not let his readers understand that he enough to any sensible man's comprehension.

But the trath is, the bill does not touch the question of territorial sovereignty on the subhe point if that body would, and would not do upon the laws of the State. The other day there was a joint session of both so if it could; and that Col. Marshall knows, and houses in Irdiana, at the inauguration of the perhaps the editor of the organ knows it. THURSDAY, - JANUARY 15, 1857.

The intelligent readers of the organ, if it has any, cannot but be amused and dirgusted with the ignorance of its conductor. Yesterday merbing, in order to attack the Democracy of Indiana, and aid his Black Republican friends, he makes two or three false and ignorant assertions that ought to disgrace a schoolboy. In the first manufacture and sale of spirituous and intoxicating inquers, except in cases therein named, and to form of government.

Ayer's Cherry Pectoral, For the rapid ours of Coughs, Colls, Hourseness Bronchitis, Whoeping Cough, Asthma. and Consumpon. Is universally known as the host remed ry Disease. So wide is the field of its usefulness and so numerous the eases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and once tried, its superiority over every other medicine f its kind is too apparent to ascape observation; and where its virtues are known, the public no longer has state what antidote to employ for the distressing and dangerous affections of the pulmonary orwans which are incident to our climate. By its timely use, many, nay almost all, attacks of disease upon the lungs or broat are arrested, and thus are saved many thou andsevery year from a premature grave. No famil y should be without it, and these who do neglect t provide themselves with a remety which wards of this dangerous class of diseases, will have cause to fleacy of the Cherry Pactoral need n t be given t the American people—thay have living proofs in every neighborhood. But those we wish to read the state ments of those whose whole health has been restored tham in my American Almanac, which the agents beow nemed have to furnish gratis for every one.

HEAVY ROBBERY IN LEXINGTON .- The Lexing ton Openiver and Reporter, of yesterday, contain the particulars of the robbery of Mr. Davi M: Murtry, of that city, at Melodeon Hall, in Lex ington. Saturday evening last, by which hi pocket bo k, containing three thousand four hundred and twenty-five deliars, was stolen Mr. M. Murtry, with his wife and several other ladies and gentlemen, attended the exhibition a the Melodeon that night of a magician, who repname is unknown. On his way home, after the safetr." This, in some respects, however, is a turn one-half of the product for subsequent disexhibition closed, he discovered that his pocket | misnomer-the rolling stock being propelled by tribution." book was gone, when he immediately retraced his s one to the Melodeon, which he searched ther oughly, without discovering any trace of the pocket book. The next day, he again made, search in the Melodeen, when he found th p cket-book, divested of its contents, in a planwhich he had searched well the night before As the megical "fixings" of the "Fakir" were lefin the room on Seturiay night, and he alone had possession of the key from the time Mr. N searched it that night until the search the nex day, ween he found his pecket-book, he cause: the "Falir" and his attendants to be arrested and the roughly searched, but without finding any money upon them, and he has not yet been able to get the slightest clos to the thief. The loss whice would be a serious one to anybody, is persocularly so to Mr. McMurtry, being all that he pre-cesce lu the world.

JUDICIAL CLEMENCY .- William Winnburger of P related, was arrangted, among others, before the P has Court yesterday upon as ordinance warrant, for junning a back wi hent license. I app are upon inve tigation that Mr. W. had been pouliarly unfortunate of late, and that his caswas one which seemed to demand the exercise of leg clemency. In most cases it seemed that the delinquency wa: an overer ht, and not meditated, and Judge Johns on very pr party dismissed the warrants merely subjecting the parties to the cost of suit.

Dawreng Trouble .- During the sitting of the Paras Court yesterday morning, Pat Grimes was presented to that tribunal, on complaint of ble w.fo. that he had threatened to whip her, apthat we was afraid he would do her some physi cal i j ry. Very much to Patrick's prejudice, i was awa that, although he had been marrio bu five maths, he had already whipped he wife on w occasions. This seems to be contrary to the e njugal statute, and Patrick was held to bail in 4000 for his g od behavior six months; falling to give which, he was committed to the

This new plant seems to be destined to take an mportant position among our economical pro-tucts. Its soeds were seat, some six years ago, rom the north of China, by M. de Montigny, to he Geographical Society of Paris. From a curse y examination of a small field of it, growing errieros, in France, in the autumn of 1854, Mr D. J. In Franco and the central and northern sections of the United States, it bas tus lar proved an annual; but from observation unde by M. Vilmerin, as well as some experimenta u cur Southern States, it is conjectured that un the viger and fullness of the lower part of no stalks in nutum, by protecting them during ne winter, they would produce new plants the to lowing spring. It stands drought far better considerable frost without injury, after the pani les appear, but not in its younger and more ten er state. If suffered to romain in the field after the seeds have ripened and have been removed where the season is safficiently warm and long new panioles will shoot out at the tepmost joints no or more to each stalk, and mature a secon top of seeds. The average yield of seed to each

penicle is at least a gill. CULTIVATION. Since its introduction into this country, the Chinese sugar case has proved itself well adapte courgeographical range of Indian corn. It is rsy cultivation, be ng similar to that of make or broom corn, but will prosper in a much poorer soil. It does not succeed so well, however, when own broadcast with the view of producing loc-der, as is will not grow to much more than one-buil of its usual height. If the seeds are planted in May, in the Middle States, or still earlier at the South, two crops of fodder can be grown in a sea-July, to be cut before the panieles appear, which would be green and succulent, like young Indian corn—and the other a month or two later, at the cultivator will necessarily have to obtain hi start the plants under glass, in the spring, and re more them to the field or garden at about the pe riod of planting Indian corn, after which they would fully issture. One quart of seeds are found to be sufficient for an acre. If the soil be inrich, they may be planted in hills, five or more seeds to each, four or five feet apart in one direc hasy be worked or hoed twice in the course of the season, in a similar manner to Indian corn. Any suckers or superfluous shoots, which may spring

up, may he removed.

The seed should not be harvested before it acquirces dark or black hue. Should the plants lodge or fail to the ground, by excessive weight of the heads, during storms of wind or rain, before the pasicles, tie them up in bunches of twenty-five, and suspend them in any secure, airy place, sheltered from rain. If intended solely for fodder, the arst crop should be out just before the panicles would appear, and the second as soon as the seed would appear, and the second as soon as the seed arrives at the milky stage. Mr. Darfee maintained not only the constitu-

tional power, but the duty of the Government to protect and encourage the Industrial pursuits of the country. He particularly spoke of the justice of admittleg, free of duty, materials which enter into American manufactures, so that in this espect we shall be placed upon a footing with Reglish manufactures. He would give his sup-port to any bill which should contain judicious Scrimination in layor of American industry.
Mr. Letcher wished to know whether the r the substitute presented by Campbell, of Ohio, was a more man of straw, set up to be fought for the present, and whether, when the disunion and [passed.] he intended to introduce another bill, speak on it for an hour, and then terminate the debate without affirding others an opportu-
